

As part of our standard review process for exhibitors at the AAEP Trade Show, we are conducting a verification of the products and services that will be displayed and/or sold during the event.

To ensure all exhibitors comply with show guidelines and uphold the integrity of the exhibition, please provide the following information:

1. A complete list of all products and/or services you intend to display or sell at your booth.
2. Verification that all products fall within the approved exhibitor category for the AAEP Trade Show (see attached Exhibitor Prospectus. These categories are listed on the application you signed). These products include equine and veterinary related products only.
3. Confirmation that no unapproved or third-party products will be offered for sale during the event.

Please submit the requested information to [dmiles@aaep.org](mailto:dmiles@aaep.org) along with your booth application.

Please note that providing falsified, misleading, or incomplete information will result in **immediate removal from the trade show floor and forfeiture of all fees paid**. We will check every booth early Sunday morning prior to the show opening to confirm your list of products match the information you have submitted.

For **first-time exhibitors**, a signed copy of this verification form is required to confirm understanding and compliance with these policies. **Exhibitors who do not have a signed verification form on file will be denied move-in access to the exhibit hall.**
